

## Committee News

After supporting IYC 2011 the YCC is committed to extending its international presence within IYC+1. YCC will continue to work with the European Younger Chemists as well as forge new relationships in the Middle East. Momentum to enable 'Younger Chemists Crossing Borders' regularly and with deliberation will be increased; opportunities for constituents are sought actively. Increased collaboration with diversity partners is also a focus. With its expanded representation of undergraduates, the YCC is committed to furthering support and programming that addresses jobs, networking, training, and career advancement for its members. Below are other highlights from the YCC.
